

Co-location Powered by Excellence

Utopia Systems, Inc. provides enterprise-level co-location services for your mission critical systems, servers, and applications, in our secure facility, 24 hours a day, 7 days a week. *Experience the Utopia difference!*

Critical elements to maintaining high service levels are based on highly qualified technical people, and a state-of-the-art carrier-grade data center facility.

Co-location Services

- ❖ **Rackspace:** Entire managed cabinets or a 1U server, no large commitments, as we grow with you
- ❖ **Managed Servers:** Utopia can provide servers for your business, or we will manage yours, and treat them like ours
- ❖ **Managed Applications:** We manage Microsoft Web/SQL Servers, Exchange Servers, Linux and UNIX Servers
- ❖ **24x7 Support:** By phone or email, we are always available to support your systems and servers
- ❖ **Superior Uptime:** We offer 99.99% uptime for network services and 99.9% uptime for servers, web hosting and email hosted by Utopia
- ❖ **Enterprise Firewalls:** Cisco PIX and Microsoft ISA Server keep your servers from Denial of Service (DOS) attacks
- ❖ **Patch Management:** We keep your servers up-to-date with the latest security patches and critical updates
- ❖ **Backups:** We provide daily backups to Network Attached Storage (NAS) and optional weekly backups off-site
- ❖ **Premium Carrier Bandwidth:** InterNAP provides the lowest latency and highest performance resulting from peering with only Tier 1 carriers
- ❖ **Microsoft Heritage:** Our partners are former Microsoft System Engineers and Consultants with over 50 years of combined IT infrastructure experience

Our Data Center:

- ❖ **High Performance:** Dual OC-12 (622Mb/s each) connectivity through InterNAP, for high-availability, low latency and redundancy
- ❖ **Multi-level Security System:** Secure access requires card key, PIN and biometric palm scan, coupled with CCTV surveillance
- ❖ **Power Redundancy:** Dual AC/DC power, battery backup, and external generators provide constant energy
- ❖ **Fire Protection:** Redundant fire detection and suppression systems, including VESDA
- ❖ **Environmental Control:** N+1 climate control systems for perfect operating conditions with respect to temperature and humidity
- ❖ **On-site Support:** 24/7/365 on-site staff
- ❖ **Meeting Facilities:** Meet-me room and full conference room available
- ❖ **Conveniently and strategically located** in The Science Center building, center-city Philadelphia
- ❖ **Backup Facility:** Recovery facility is located in Wilmington, Delaware for re-creation of systems and services
